Book your next meal in Paris with the ClickMe application for Google Play Store on your Android device. The application is now available in the French version, to make it even easier to use. The ClickMe application makes it easy to book your next restaurant meal using your phone or tablet. It's a great app to order takeaway, and also to discover new restaurants in the area you live or you visit.

The application is available in 26 languages and dialects including English, Spanish, German, Italian, Chinese and so on. "We were looking for a new app to make life a little easier for us and for

---

our customers,” said Laurent, the founder of the company. “We could not find anything that helped us save time and made booking a restaurant as easy as it is with the ClickMe application.” The ClickMe application provides access to menus, reviews, videos, contact details, and even maps of the restaurants. It also allows you to see the menus in 3D, 2D, and with a virtual webcam. With this application, you can check out the reviews and the history of the restaurant. It can also be used to request a reservation and to make payments, either in cash or with a credit card. With the new ClickMe application, the restaurant will receive a booking notification. To speed up and optimize the process, the restaurant owners also have access to information about the customer such as the number of visits, how much time the customer spends on the site, their feedback and so on. With the Google Play Store, you can get the ClickMe application in the following languages: English, Spanish, Arabic, Portuguese, Italian, German, Chinese, French, Flemish, Greek, Hungarian, Dutch, Polish, Russian, Korean, Japanese, Indonesian, Vietnamese, and so on. About ClickMe ClickMe, founded in 2014, is an innovative company, the founders of which are Laurent LONCAR, a French entrepreneur, and a team of specialists. ClickMe is registered in Europe and in Singapore. More information:Q: Is the default constructor virtual? 2d92ce491b
