Post #15 of 28 by Henry Pearson -7/9/2012 Toshiba is known for its wide range of products, including office products and home appliances. One such product is the Toshiba EF-725 series of electric field printers and thermal printers. The Toshiba EF-725 is a high-quality, high-speed electric field printer that delivers up to 110 lines per minute and a thermal printer that works at up to 200 lines per minute. This unit also offers a 20-sheet paper tray for continuous operation and a roll-to-roll paper supply. It accepts both single-sided and duplex printing. For direct printing, the EF-725 series of thermal printers can print up to 20 pages per minute with a maximum print width of 18.2 inches. The high-speed electric field printer also features a built-in automatic document feeder that accepts up to 100 single-sided documents per cycle. Toshiba Thermal Printer EF-725D Models Printer Manufacturer: Toshiba Released: 2011 Packaging: Box Dimensions: 10.5 inches wide, 7.3 inches deep The Toshiba EF-725 models are the thermal printers, while the EF-725D models are the electric field printers. Both can print on a variety of media, including card, note paper, envelope, label, transparencies, and clear paper. The EF-725 printers use multi-ink thermal transfer printing technology that delivers sharp, crisp images. The high-quality toner and fusing system ensure long-lasting, high-quality prints. The electric field printers work through heat, direct pressure, and magnetism to create prints. The EF-725 models print on plastic, paper, paper board, and vinyl. They are designed for industrial, office, retail, and home use. The EF-725 models use a 10-sheet ADF for continuous printing, while the EF-725D models accept up to 100 single-sided documents at a time. The printers have a variety of user-friendly features, including easy-to-read LCD displays, touchscreen display, and automatic document feeder. They offer various sheet media, such as label, card, envelope, print-out tray, and paper, which are all compatible with both printers. Toshiba EF-725 models can print from up to 20 pages per minute, and the maximum print width is 18.2 inches. The printer uses multi-ink thermal transfer printing technology that delivers sharp, crisp images.
