Note: This topic is intended for Office 2013, 2016, and 2019. For information about Office 365, please see "Office 365 language packs." The Microsoft Office Language Packs enable customers to enhance the Office application environment by customizing the user interface, the program interface, and the display of content. Depending on the environment, the Office language packs may be installed for the entire Office suite or just one application. Office products available for download include Word, Excel, PowerPoint, and Outlook. Overview of Office 2013, 2016, and 2019 language packs Microsoft Office 2013, 2016, and 2019 include several language packs. The Microsoft Office Language Packs enable customers to enhance the Office application environment by customizing the user interface, the program interface, and the display of content. Depending on the environment, the Office language packs may be installed for the entire Office suite or just one application. Office products available for download include Word, Excel, PowerPoint, and Outlook. These language packs are available in English and eight additional languages: Arabic, Brazilian Portuguese, Chinese (Simplified), Chinese (Traditional), Croatian, Czech, Danish, and Finnish. Microsoft Office 2013 language packs These language packs are available for Microsoft Office 2013. For Office 365, please refer to the sections "Office 365 language packs" and "Office 2016 language packs." If you are planning to install these language packs, refer to the sections that follow. You must have the Installation media for Office 2013 if you install these language packs. You can download the installation media from the Microsoft Office home page. If you have Office 2011 or Office 2010 installed on your computer, the Office 2013 language packs are included. The Office 2013 language packs do not replace the original Office language packs. The Office 2013 language packs include the following language packs: Office 2013 language packs Installation and maintenance of the language packs If you are installing Office 2013 language packs on a computer that has an earlier version of Office installed, we recommend that you first uninstall Office 2010. Download, install, and update the Office 2013 language packs Use the Download and Installation Wizard to download and install the Office 2013 language packs. The download includes a Product Key and the appropriate Language Pack. The two files that you download are.wks (English) and.msu (all languages). Install the language pack Double-click the.wks file

May 24, 2019 - Introduction to Microsoft Office 2010 SP2 (32-bit). Get the latest updates for Office 2010 and improve your document management system.
