You have the loader/cursor in the wrong place; it's supposed to be over the video. The video itself is a bit under-utilised, but it looks like it's at least not noticeably compressed. It appears you were saving while the original video was playing. The song isn't playing, but the song itself is at the start. The compilation is the starting point. The bar at the bottom is larger than it should be, and it's stopping at the correct time, but it's at the bottom. October 22, 2008 - Joe Once again, E3 is over, and we don't have anything substantial to write about. Hopefully, the next version of the site will have some features to it, such as the Daily News and our forums! Meanwhile, look for articles, videos and podcasts with more background on what happened at E3. Enjoy your week, and the holiday season! It's always a pleasure to have the chance to give back
