In a nutshell, it is a huge, open-world RPG from the studio that created the games about "A little elf" boy that opens up the eyes of a rather poor king. What does this have to do with World War II? Well, World War 2K13 was a very, very popular mod in vanilla, and its legacy lasted through WW2K13 and went through several expansions. The idea behind it was simple: A small group of highly trained soldiers is deployed on a WW2 era (in this case) mission that requires stealth.
