## What's New in the Who Is Who Book?

Who is Who Book The Who is Who Book is made to make communication within an organization easier. The Who is Who Book has the power to save your time by letting you find the right person in less than one second. You can create a Who is Who Book as an individual or a group. Everyone may have their own book. You can choose between a color scheme (blue, red, green, black, white) or another. The Who is Who Book is a database. It contains a huge database of all the information about your contacts. You can easily add a new contact or delete the contacts that you don't need any more. The Who is Who Book will automatically sort the contacts so that you will always find the right person first. How do I create a Who is Who Book? You start with the Who is Who Book by adding the contacts that you want to be stored in it. As you can see, the Who is Who Book is also a database. The contacts can be stored by themselves in their own windows. Or you can also

---

choose to store them in the main windows. The Who is Who Book will automatically sort the contacts according to the last name or the email address. If you want, you can remove a contact from the database at any time. If you want to store contacts in a group, you just have to add them and the group name in the database. The Who is Who Book is very easy to use. Simply go to the main window by clicking on the Menu. Then choose "Add New". You will see the main window with all the fields on the right. Enter the information and press the "Add" button. You can also choose the color of the database (black, red, green, blue, yellow or white). The background color can also be changed. You can choose the way that the contacts are displayed. By default, the contacts are displayed one by one. If you want to choose another style, you have to choose it from the main window. How do I use the Who is Who Book? You can use the Who is Who Book to check a person in a fast way. You can also use it to check the new employees that you are going to hire or to let your contacts know about a decision that you make. You can write an email message to a single contact or to all the contacts in the database at once. How do I use the Who is Who Book for Windows? You can enter your information into the Who is Who Book using the Windows Forms controls. Enter the first name, the middle name, the last name, the city, the country and the phone. You can also enter the email address. When you have finished entering the information, press the "
