Contents What is Photoshop? Adobe Photoshop is an integrated suite of image-editing programs that include Photoshop CS, Photoshop Elements, Photoshop Lightroom, Photoshop Express, and Photoshop Mobile.[1] Photoshop CS and Photoshop Lightroom are digital-imaging, photo-editing, and illustration software for professional photographers, graphic designers, and illustrators. Photoshop Elements is similar to Photoshop but is not as feature-rich. Photoshop Express lets customers create, edit, and share their own photos from anywhere with an Internet connection. Photoshop Mobile is a free app for both Apple and Android devices that enables customers to transform photos and videos into images. Adobe Photoshop, Adobe Photoshop CS, and Adobe Photoshop Elements are available in the Adobe Creative Suite. The Adobe Creative Suite, released on April 4, 2016, consists of Photoshop, Illustrator, InDesign, and Dreamweaver, the Web Design program.[2] Other programs in the suite include: You can use a wide variety of tools to edit photos, including organizing and deleting objects, retouching, transforming, compositing, and adding special effects. Tools in the Edit section include basic editing tools like adjustment layers, adjustment guides, and controls, as well as advanced tools such as the Smart Sharpen tool. The History panel displays the changes you've made to an image since the last time you viewed it, and allows you to undo and redo those changes. You can also view related images at any time, adjust the lighting and other settings in an image, or see the exact images that have been applied to the image you're working on.[4] The Options panel contains options that you can apply to the currently selected image. A slider in the Options panel controls the process of transforming an image. You can use the Fill tool to quickly fill a selection to any color, texture, or pattern. A side-by-side preview helps you to see what you will get before you fill a selection.[5] You can use the Filter Gallery panel to add one or more filters to an image. The panel includes a large variety of filters, including the usual suspects — such as color, black-and-white, sepia, and grayscale — as well as the more esoteric ones, such as luminance and shades.[6] 3) Click on the crop toolbox icon to the left of the on-screen image. This will show the crop tool. The crop tool lets you crop your

However, Photoshop Elements is still a powerful tool because it offers features that only its professional counterpart, Photoshop, can. Photoshop Elements can open, save and print JPEG, JPEG 2000, PDF, TIFF, TIFF PE, RAW, Adobe PDF, and EPS files. It can also help create most common Photoshop file formats. Photoshop Elements comes in two versions: The Lite version is cheaper and comes with a 7-day trial. This version allows you to create both bitmap and vector images and does not support Photoshop plug-ins. You can export to a variety of common formats, including: EPS PDF TIFF JPEG JPG Portable Network Graphics (PNG) GIF You can use it to create digital photo albums, create PDF files from scanned images and create e-book files, among many other things. You can edit and design web pages as well. The complete version costs \$100 and comes with a 30-day trial. It supports the following features: You can import Photoshop image files as well as Portable Network Graphics, or PGM. It can also open and create Photoshop image files. You can create, edit, organize and manipulate various types of pictures, such as: Graphics Images Web Web pages Folders You can use most of the features in the program including the many additional tools Photoshop offers, as well as the tools it lacks. You can use the program to edit both bitmap and vector images. The program has a simplified interface and a reduced set of features compared to the pro version. However, it has some useful built-in Photoshop tools, such as the Magic Wand, the Clone Stamp, the Healing Brush, and the adjustment Brush. The program supports the following input and output file formats: The Lite and Complete versions are available for Windows only. Emma Watson. Photo: Mark Turner/GLENN MILLER, WENN Emma Watson is indeed a cult figure, and we can now add The Hunger Games character to that list. She is currently a real-life superhero, though, because the actress gave a speech at an airport in Germany on Thursday, where she implored her fellow passengers not to smoke weed before they board a plane. In case you didn't know, this is a real thing that happens, and also pretty damn tragic. When Watson arrived at her destination, she was greeted by a puzzled crowd as she urged everyone to smoke up before heading onto the plane. "Hey, I'm Emma Watson," she began. "I come from the world of Harry Potter, and I don't like to smoke weed. Maybe it's because I have problems with anxiety." The crowd didn't seem to know what she was talking about. Watson explained that her anxiety was to blame for not being able to enjoy smoking weed on a regular basis. Watson has a point, though. It's true that people who smoke weed before flying are often the type of people who believe their trip will be longer if they're impaired. But Watson's not so concerned about whether she'll get through the airport unscathed. Her issue is that she'll be unable to take a steady, normal breath, not that she'll be unable to move the whole plane because she's smoking under the influence. Showings at the Palais des Expositions in Roissy There are currently no active showings at the Palais des Expositions in Roissy-en-France. The most recently added showing at the Palais des Expositions is on 2019-03-21. The Palais des Expositions is open daily from 09:30 to 21:30 (BST). Due to the current lockdown, we expect most showings to be cancelled or postponed. We aim to be as open as possible, and will update this page regularly as the situation develops. Red Steel 2 Will Be At The PlayStation Experience This weekend kicks off the PlayStation Experience which is where Sony will show off the PlayStation 4. I know, it will be a big weekend but it's time for some news. The biggest announcement will be that Red

### What's New in the?

The state has invested \$25 million in cash or debt in next year's budget, and more is planned, under the guidelines Gov. Jerry Brown and his revenue watchdogs outlined Wednesday. The budget deals with issues ranging from state firefighting to healthcare for the homeless, more funds for college scholarships, and money for the California Arts Council, the Reentry Program and the Health Workers for Health Equity initiative. The administration has also taken on some of the more arcane parts of government, turning over child-support collections to private contractors, or consulting the U.S. Department of Homeland Security for help on fire-prevention measures. The governor proposed a 5 percent funding boost for some state agencies under a formula that was added as a major state policy shift in December. But the main emphasis of the new budget plan remains on what the administration terms Brown's "Plan B" — redirecting money that has been held up in court for high-cost appellate litigation against the budget cuts Brown implemented last year. On Wednesday, Brown pointed out the cap-and-trade program and the cap on gas-guzzling trucks as areas where Californians are receiving relief after the 2011-12 state budget cut \$2 billion. The "truck relief" has been replaced with money for an "Alternative Fuel Assistance Program" that will pay up to \$100 for a covered truck that runs on compressed natural gas. The program will be reviewed in October to determine whether it still should be funded in the 2014-15 budget. "If the numbers are right, it's money well spent," said Brown, as the cap-and-trade program faces a possible legal challenge from the Western Center on Law and Poverty. Brown's transportation department has been directed to expand an electronic toll program with new technology that will replace cash when cars begin paying tolls on all major roads entering Los Angeles. He also plans to boost the four-year-old program by \$24 million. The cash payments into the state's education programs would go toward scholarships for college and UC or CSU students, as well as for students in schools operating at 100% of capacity. Brown said he supports the governor's 2014 budget proposal to redirect \$15 million of the state's cap-and-trade revenue to education from criminal justice. The state is currently using
