
Starcraft Dragon Ball Z Maps (TOP)

Jul 28, 2021 - This is a single player role-playing game based on the GBA game Legacy of Goku. I created this map over ten years ago and never finished it. This is the latest and greatest version after I was completely devastated. I have no desire to continue. It's not something I ever hoped to do. I just created this because I wanted to. In this thread, I would like other people to be able to play the Gaku game that I thought was my dream game. First of all, I would like it to be open and free for everyone. I feel like I need something to live on when I'm done. I love my job, I have a passion for the game.
