What's New In PrepWikiRef?

PrepWikiRef is an intuitive and easy to use application designed to help you quickly generate a list of bibliographic references for articles, books and journals. PrepWikiRef can import references from wiki articles and automatically copy the generates references to the clipboard and to the 'Created' section. Features: - Automatic reference recognition (from an article or any text) - Support for book, journal, conference, thesis and dissertation references (in addition to article references) - Support for import references from the clipboard - Linking to the 'References' section of an article - Creation of a reworks bibliography - Creation of an XHTML-style reworks bibliography - Compatible with any new or old version of reworks 4.1 and 4.0 - Can be used in combination with any wiki reference tool, including IEEditor installation. PrepWikiRef can be used as a stand-alone application or as an add-on for reworks. It can be installed either from the web (without registration) or as a download. A standalone, fully functional, registered version is available from the website. Requirements: PrepWikiRef requires that you have reworks 4.1 installed. Installation: You can download a free registered version of PrepWikiRef from the website. We recommend using the 'setup' option of reworks to install the plugin. This option will also generate a BibTeX file containing all the entries in the bibliography. See also: Check out the reworks video tutorial. Starting from version 4.0, PrepWikiRef has been combined with reworks. With this new version, PrepWikiRef is more powerful and easier to use. See also: Check out the new 'References' section of reworks. A version of PrepWikiRef compatible with the new features of reworks is available from the website. See also: Read the new user's manual of reworks. History: PrepWikiRef v1.0 was released on October 24th, 2007. Version 0.9.1 was released on May 5th, 2008. Version 0.9.2 was released on June 24th, 2008. Version 0.9.3 was released on July 14th, 2008. Version 0.9.4 was released on August 26th, 2008. Version 0.9.5 was released on September 25th, 2008. Version 0.9.6 was released on October 15th, 2008. Version 0.9.7 was released on November 18th, 2008. Version 0.9.8 was released on December 17th, 2008. Version 0.9.9 was released on January 15th, 2009. Version 0.9.10 was released on February 19th, 2009. Version 0.9.11 was released on
