## Internet Radio Tuner Crack + Free Download

Internet Radio Tuner is a small, but useful tool, that will allow you to easily manage internet streams for your favourite traditional radio stations. It also allows for albums stored in a users Windows Media Player library to be played as a whole. You can manage the order of songs or albums to be played in the 'On-Line' section of the application. You can also listen to your local radio stations, select and add to favourites and clear them from the 'Favourites' section of the application. If you are a Windows Media Player user you can also configure Internet Radio Tuner to use your Windows Media Player library as a source for the 'On-Line' section of the application. This is useful if you have albums stored on your Windows Media Player library that you want to have played as a whole. It will allow you to easily manage these albums and shuffle the order in which they are played. If you are using Internet Radio Tuner in conjunction with your Windows Media Player library, you can also easily sort your Windows Media Player library by artist or song title. Internet Radio Tuner is also a simple to use application, where the application can be operated using a keyboard or a mouse with simple menus that allow the user to quickly select options and data. Internet Radio Tuner Features: Internet Radio Tuner Features: Customise: The application can be easily customised by changing colours, fonts and adding album names etc. The customisation of the application is optional. On-Line: Internet Radio Tuner allows you to manage your favourite internet radio stations. The Internet Radio Tuner On-Line section allows you to add to your favourites, remove them from your favourites or clear them from your favourites list. You can add internet radio stations by clicking on 'Add Station' and filling in the required information and pressing 'Add'. The Internet Radio Tuner On-Line section also allows you to browse your favourite radio stations by entering a name for the stations and then selecting the stations you wish to have listed. Favourites: The Internet Radio Tuner Favourites section allows you to manage your favourite internet radio stations by adding them to your favourites list and or clearing them from your favourites list. You can also easily view your favourites list by clicking on 'View Favourites'. Albums: Internet Radio Tuner also allows you to manage your favourite albums, in conjunction with your Windows Media Player library. You can add albums to your favourites list or clear them from your favourites

## What's New In Internet Radio Tuner?

Internet Radio Tuner allows users to view, add and edit stations and their metadata by utilising a simple library of user-defined stations. It is designed to be extremely easy to use. Simply search for a station by entering their IRI and the start time of the stream. The application will scan the IRI returned and select the best available stream based on any metadata stored in the database. Internet Radio Tuner comes with a library of over 50 pre-defined radio stations (created using a database of over 1 million radio station stations). Internet Radio Tuner Library: Hits Radio 1 (2014) The first full-time networked station playing current chart hits, music and shows, recorded in New York City. We broadcast from the heart of The World. London Traffic (2011) In-depth interview show, hosted by Ray Coyle, giving you the latest on the traffic situation in London. Rocking 101.2 (2011) Classic rock music station playing the best music from the 60s-90s. KSLU 89.1fm (2011) Classic Rock radio station based in Salt Lake City, Utah. Rio 107.9 (2011) The only Rio de Janeiro area FM radio station with all your Brazilian Music. The New York Hip Hop Experience (2011) The most distinctive and authentic alternative hip hop station in the US. Hot 107.7fm (2011) The top rated station in the UK. Johnnie Walker Classic Rock (2010) Classic Rock formatted radio station broadcasting from London, UK. Traffic Guy (2010) Former LA-based commercial traffic reporter discusses traffic trends and problems. KFI AM640 (2010) The number one station in the US with a talk, sports and music format. WOR FM 98.5 (2010) A New York station playing the music of the 70s, 80s and 90s. Hawaiian Classics (2009) Hawaii's only all-Hawaiian music station. We play Hawaiian Music, Hawaiian Culture, Hawaiian Food, Politics and all kinds of Hawaii-related stuff. Tower Radio (2009) The best modern rock music radio. KSRR 93.3FM (2009) Popular, live music station. With music by The Black Keys, Ryan Adams, Fall Out Boy, The Killers, Jay-Z, Mumford and Sons and many more. Fantasy (2009) The best modern rock music radio with music by the Foo Fighters, Johnny Cash, Linkin Park, Black Eyed Peas, AC/DC, R.E.M, Nirvana and other great bands.
