I'm using Ubuntu 18.04 Here is my df Filesystem 1K-blocks Used Available Use% Mounted on tmpfs 18147548 0 18147548 0% /run tmpfs 18147548 0 18147548 0% /dev/shm tmpfs 18147548 1264 18147524 1% /run/lock tmpfs 18147548 0 18147548 0% /sys/fs/cgroup cgmfs 8 0 8 0% /run/cgmanager/fs/cgmfs /dev/sda1 13185936 13185936 0 100% /boot I want to add space to /boot, I've tried sudo resize2fs /dev/sda1 sudo resize2fs /dev/sda1 8 But I get the following error: resize2fs 1.42.11 (17-May-2013) Please help me, thanks. A: Probably resizing a partition that's mounted is not supported for various reasons (at least for ext4 and probably even for exfat). Try to have the partition unmounted first. It might also be best to reboot before the resize operation so that the kernel gets
