All in all, though, Spotify Ad Remover is a welcome piece of software that does exactly what it intends to do, that is to take Spotify ads out of your way. We feel that its lightweight nature makes it a highly practical utility to place within your collection of tools that provide Spotify's major advantages. Disclaimer: Spotify & Spotify ad remover are registered trademarks of Spotify AB (aka Spotify) Recommended for You If You Appreciate Clean and Simple Design: Links are Instead of lying about what Spotify app really is, Spotify does the proper thing and doesn't bother providing fake screenshots. This is exactly the type of software you'd expect from the company behind one of the most popular music apps in the world. You're probably wondering how you can remove advertisements from Spotify in the first place, or how to tackle the problem. The reality is that Spotify ads are integrated within the application, as its name suggests. The problem only appears when you switch on the music app, but there is nothing you can do about it unless you want to get yourself banned from the service. Fortunately, there are no such issues when using Spotify Ad Remover, an aptly named program that takes care of the problem on your behalf. Spotted in the first version of the software were ads similar to the ones you would see on the service's website. By using Spotify Ad Remover, you are able to block ads in a variety of different ways. As you probably know, Spotify itself doesn't support many ads. For instance, the free Spotify accounts have limited ads, meaning that the ones you see might not be relevant to you. Don't worry, because the software does not restrict you in any way. It's just that, sometimes, the recommendations that appear under certain track titles or what have you might feel a bit too close to the ones you see on Spotify's website. This is where the program comes in, since it's able to remove any ads that appear for
