Download the latest Mustek BearPaw 1200CU Plus drivers. On Windows 10 & Windows 8.1, right-click the start menu and select Device Manager. If there are any new drivers, they should be placed in the Driver folder. Remove the driver you want to reinstall. Open the folder with old drivers. Select the device you want to remove. Right-click and select Uninstall Driver. In the Device Manager window, right-click My Computer and select Uninstall. Select "Remove device" from the drop-down list. Click on the device you want to remove.
