Download Dead Space 2 Steam V1.0.0.0 +2 Trainer for free from the biggest game trainers and unlockers database of Dead Space 2. Oct 21, 2017 The trainer works with version 1.0.0.0 of the game. Last update: Tuesday, October 21, 2017; Genre: Action; File size: 2.4 MB. Features Most importantly, the trainer is a mod of the original game so you can use it on whatever version of the game you own. I don't just want to make this trainer for players to be able to play the game on easy. This trainer and its mod are a way for hardcore players to show that they can get through the game on the hardest difficulty. While working on the trainer, I found the hardest difficulty in the game to be much more enjoyable than the regular difficulty. Getting through is much easier on the hardest mode because of the following features you can set in the trainer: Weapon/Device Energy Powers Experiments Boss Working Features Weapon Energy When you get into the shotgun turret, you can set how much energy you want to spend on it. Depending on what weapon you're using, the energy level will determine how much of the weapon charge is restored in power cells. If you set it too high, you will be wiping your power cells a lot. If you set it too low, you will not be able to use that weapon until you have another charge up. Powers The first feature I worked on was called "Powers". For each power, you can set how many you want to have used up when you die. Each power can also set if they are on hard, medium, or easy, for each difficulty. You can also set them to toggle between on/off in its description. There is also an option to turn them on/off at the same time you are in power cells. Powers include: Heartbeat (For Heart Monitor) Advanced Health Regeneration Vacuum (For vacuum tubes/energy cuffs) Data Distribution (Communicate with modules on the wall) Experiments Using experiments, you can set how many you want to be used up on a player when they die or after a certain time. There are 2 types of experiments. One type, the "toxic experience", allows you to use up your player's speed when they die. The other type, the
