User Interface: The software package delivers a nice user interface that allows users to choose different wallpapers, desktop themes, screen savers, and screen effects with a single click. The package comes with over 300 pieces of background images to create a unique desktop or office design. Furthermore, with this package, users can experience various desktop, taskbar, and start menu animations. Features: - Wonderful experience - Unique desktop themes - Amazing wallpapers - Clean and minimal design - High definition images - Full of new wallpapers The theme works great, but I still have a couple problems. One is that my background disappears when ever I load pages, especially when in a different screen. The other is that Windows 7 Ultimate 64 won't run the theme. I have Windows 7 Pro x64 with Ultimate on my new laptop. **BEST OUT OF THE BOX (ABOUT 2 minutes after you install the software) REGRETS** You must change the process priority for the "WINDOWS / PROCESSES" so that it runs before the desktop, aka Nth priority, or restart I did a fresh install just because it was so easy, but that means your system could go into hibernate and you would not wake up until you re-enter the WINDOWS. By choosing to install Windows 7 they have just built in YOUR OWN brand of "CYBER-STEEL". About 5 seconds after the "Welcome to Windows" screen your computer has already decided to take the rest of your hard drive. But in case you missed this little fact, the first thing it will do is take a screenshot of your entire screen. And it isn't even a screen shot. It's a repaint. Once your computer is half way up the re-paint process (and I don't
