vCard Wizard 2022 Crack is a Microsoft Outlook add-in that allows you to easily share contacts, export them, or import them from another source. The add-in supports Outlook toolbar/menu integration, so that you can easily launch the software from the Outlook toolbar or menu, as well as configure and save contacts directly from it. vCard Wizard Features: Import Contacts from multiple sources Export Contacts from multiple sources Import Contacts to multiple destinations Export Contacts to multiple destinations Duplicate Contacts based on different criteria Write to a predefined location Send Contacts as email attachments Import and export contacts Import and export multiple Contacts Import multiple Contacts folders Import multiple Contacts from local folders Export multiple Contacts folders Export multiple Contacts to local folders Export to multiple folders Import from multiple folders Export to multiple folders Remove contact duplicates Sort Contacts by name Sort Contacts by address Sort Contacts by email Sort Contacts by phone Sort Contacts by state Sort Contacts by zip Sort Contacts by city Sort Contacts by custom column Filter Contacts by custom column You are offered step-by-step guidance throughout the entire process, so even rookies can learn to configure the dedicated parameters with minimum effort, vCard Wizard has a friendly, easy to use interface and a nice, clean design that makes the software easy to understand. You are offered the possibility to export the entire contact data or only the selected contacts to vCard file format by selecting the folder that contains the stored information, picking the saving directory, making the utility save the contacts into one file or multiple items, as well as choosing the encoding method. What's more, you can import contacts from vCard files by specifying the Outlook folder, as well as allow duplicate files to be created, overwrite duplicate items, or keep the original items without importing the duplicate files. Last but not least, you can send your Outlook contacts as email attachments, and import or export multiple contacts and even the whole Contacts folder, including Microsoft Exchange and Public directories. During our testing we have noticed that vCard Wizard carries out a task very quickly, and no errors showed up throughout the entire process. It doesn't eat up a lot of CPU and memory, so the overall performance of the computer is not affected. All things considered, vCard Wizard provides a simple software solution for helping you manage your Outlook contacts efficiently. It
