Totally Free Burner is a CD/DVD burning solution that comes with a freeware license and boasts a user-friendly approach to make sure beginners and those more experienced have no problem in figuring out which feature is which. After launch, Totally Free Burner prompts you to pick the type of disc you wish to burn, which can be an audio CD, a video CD, a data DVD or CD and a BIN or ISO image DVD. Placing content on the new disc is as easy as pie because the application not only that comes with drag and drop support, but it also features a clean interface to help you in this regard. So you can either drag a file over the window or simply click on the "Add File" or "Add Folder" buttons in the same window. The bottom of the window shows you the current size of the disc and lets you erase a rewritable CD or DVD, write an ISO or proceed with the burning. If you go for the last option, you're finally prompted to pick the device you wish to use for burning the project, but also adjust settings and change the volume name, configure speed and create a bootable disc. The burning process works like a breeze and shouldn't hamper system performance, although during our test on Windows 7 the app crashed several times all of a sudden. All in all, Totally Free Burner is a handy software utility that helps you burn CDs and DVDs with just a few configuration options, offering a straightforward interface to enhance the whole experience.
