A: I see these strings that are probably the cause: \\android-sdk-windows\android-sdk-windows-x86\platform-tools-\ android-sdk-windows\platform-tools-x86\users-\ downloads\Android\sdk\platform-tools If you have multiple instances of the platform tools directory it would explain the name confusion. It is safe to delete them, but you might need to create them again, because the directory is not recreated by default (it's a hidden directory, so it's on the PATH of the process it creates it on, but not the PATH of the process it installs it on). I think it's pretty safe to say that we, as a society, are not very good at mental health. This is especially true for men, who are often led to believe that as long as they do what they need to do, act 'manly' enough and don't complain too much, they will be fine. It's also true for women, who are often forced to take up the cause for the mental health of men. I can only speak for myself, but I really think we need to be doing a lot more in the way of an overt change in the public perception of mental health. Because it's true. We, as a society, are not very good at mental health. And it's all our fault. As a society, we are not very good at changing the perception of mental health. And because it's been so ingrained that to be a 'man' is to not be able to control yourself and be 'like a woman', many men have the need to be 'like a man' and to prove that they are 'not like a woman'. It's why men can get in trouble for saying, 'you know, I'm a man but I'm also sensitive and emotional and stuff', or 'I'm just a normal man and I love being emotional.' I think it's really important to be able to talk about these things. Many men are so afraid of being called 'gay' or 'lame' or 'soft' or 'wimpy' or 'sissified' that they have to present a certain kind of personality in order to seem like they are not. So, yes, men, here is your opportunity to be brave and f30f4ceada
