
EaseUS Data Recovery Wizard 12.8.0 License Code \V\TOP\|\|\|

We have posted many videos on how to recover deleted files on your computer, and how to use the EaseUS Data Recovery Wizard. To do so you need to take the following steps: 1. Go to the website below and download EaseUS Data Recovery Wizard. 2. Click "Download" in the navigation bar. 3. Select the correct file to download. 4. Click "Start Download", and wait for the download to complete. 5. Once the file is downloaded, double-click it to begin the installation. 6. Follow the instructions in the wizard to install the program. 7. Once done, launch the program, accept the terms of use, and press the "Next" button. 8. In the window that opens, review the third-party applications you would like to exclude from scanning. If you choose to exclude programs, the chances are that your files will not be recoverable. 9. Press "Next", and select "Select a Scanning Mode". 10. Choose "Hard Drive Scanners" to scan your disk drive. This will take a while to complete; if you don't want to wait, then use the "Quick Scan" option. 11. The wizard will now begin scanning your disk drive. The program will continue scanning until it finds all possible recoverable files. 12. Press "Next" again. 13. Choose the partition and type of data you would like to recover. Your partitions could be: a) Primary b) Extended c) Logical d) RAID e) Other f) Unknown g) Unallocated 14. Select the number of files you would like to recover, and press "Next". 15. On the next screen, you can set various scanning options such as: a) Number of Files to be Recovered b) Most Frequently Used Files c) Files with Logical Damage d) No Deleted Files, Deduplicated Files, Files with Hidden Files and/or Folders e) Other 16. Press "Finish". 17. Wait for the software to find the files you have selected. This might take a long time. 18. The program will scan the files it found, and then ask whether it's OK to return them to their original location or move them to the "Recovery" folder
