

Coolutils Tiff Combine V4.1.16 Incl License Key

" I am trying to find text of cine1.avi and cine2.avi and others files with a certain text inside. I want to find the text "Key" in the texts and copy it to a txt file. I have tried the code below, but it doesn't work. How can I do? \$a = @(Get-Item 'C:\Users\itad\Desktop\List*.avi').Name \$b = @(Get-Item 'C:\Users\itad\Desktop\List*.txt').Name Get-Content -Path 'C:\Users\itad\Desktop\List*.txt' -Raw | Where-Object {\$_.-like '*Key*'} > 'C:\Users\itad\Desktop\List\' \$a'.txt' Get-Content -Path 'C:\Users\itad\Desktop\List*.txt' -Raw | Where-Object {\$_.-like '*Key*'} | Set-Content -Path 'C:\Users\itad\Desktop\List\' \$a'.txt' Get-Content -Path 'C:\Users\itad\Desktop\List*.txt' -Raw | Where-Object {\$_.-like '*Key*'} | Set-Content -Path 'C:\Users\itad\Desktop\List\' \$a'.txt' Get-Content -Path 'C:\Users\itad\Desktop\List*.txt' -Raw | Where-Object {\$_.-like '*Key*'} | Set-Content -Path 'C:\Users\itad\Desktop\List\' \$a'.txt' Thanks A: it was a bit of a hodgepodge of comments into an answer. \$content = Get-Content -Path 'C:\Users\itad\Desktop\List*.txt' \$content | ForEach-Object { if (\$_.Contains("Key") -Or \$_.Contains("kk")) { Write-Host \$_ } } \$content | Out-File 'C:\Users\itad\Desktop\List\' \$a'.txt' Q: How to filter ListView by value of another listview in the
