A. If you can reproduce this on a fresh download with different values in your JAVA_HOME, then I assume it's a bug in Java. Java 7 has addressed most of the issues with respect to paths, so I would bet your old installation is being overly picky with it, but it might be some other bug. I would try to isolate to a single component in your setup, update everything you possibly can, and then update just the single component. $d\frac{d}{dt}(a^2 + b^3) = 2a \cdot a' + 3b^2 \cdot b'$ Let's $y = 3x^2 + 4x - 12$. Let's $f(x) = 2x^3 + 9x^2 + 5x - 6$. Differentiate $f(x)$ with respect to x . Suppose...
