What's New in the Random Tone Generator Software?

System Requirements:

- Minimum: 64MB of RAM - Recommended: 128MB or more of RAM - Processor: Intel Core 2 Duo, AMD Athlon X2 5000+, or better - Graphics: ATI Radeon 7500 or better, NVIDIA GeForce 8600 or better I downloaded the game demo. The first thing I noticed was that I couldn't tell what the game was about. Don't get me wrong, I love Windows Vista, but there is something missing when you can't tell what is going on in the game. I also noticed the screen resolution
