Stadium "connected" gameplay allows players to take up different playing roles, such as a goalie and full-back, through a quick and easy customisation of their players and playing style. The new "Be a Pro" Mode allows players to "Freeform" and play on any surface or location, all while having full control over the tactical formation and the roster selection. New online tools allow more real-time communication between the games through private messaging and a timer control for live in-game challenges. Gameplay Improvements "Be a Pro" Mode "Be a Pro" Mode allows players to quickly switch between the game universe and their own personal game. Through the intuitive creation of an initial profile, players can now switch between their game and real game in a matter of seconds. Tactic Customisation Player style and play calling are now separated from skill, making it easier for players to create their ideal style of play. Players can now set the type of formations, be it aggressive, possession-oriented or balanced. Intelligent Roster System New "Be a Pro" Mode allows players

to easily switch between their game and their own personal game. Players can now automatically enter their own personal game as soon as they are online, without needing to log back into the game, and engage in a quick real-time game. Online Tools Team Talk The new Team Talk feature allows players to privately text/play with their friends online. Players can now choose the time and frequency of their team chat. Live chat is supported in this mode for console versions. Match Timer Picking players for a match is now easier, as players can choose the time before the match to add players to their formation roster. Users can now set the duration of the match and customise the leaderboards. Friendly Challenges A new feature allows players to engage in friendly challenges with their friends. Players can invite other friends to play a game together with them, where players can join in any time and at any location. The challenges can be created and completed quickly within the new “Be a Pro” mode, and then used for future online matches. Intelligent Roster Generation The Intelligent Roster System allows players to customize the setup of every formation and customize their playing style online. Players can now select the position of the players, the formation setup and the tactic. Players can now also

The return of The Journey: Experience The World, your club and your fans on The Journey for the first time in FIFA history. This year, The Journey will take place in three significant locations - Club Camps, Stadiums, and Worldwide Tours - that will showcase the club's ground and introduce you to your fans. The Journey

mode returns to bring you even more of the authentic and intense real-life action and challenges that only the game world can provide. From crossing the whitewash at Old Trafford to scoring in the Kop at Anfield, the experience of play just got more rewarding, realistic, and fun. FIFA Ultimate Team Mode FIFA Ultimate Team (FUT) players will feature four items cards that will unlock and activate once picked up: a golden card, a random card, an activated card, and a rare card. A player's starting FUT team can only ever feature a mixture of golden, random, activated, and rare cards, as these can only be opened via packs. Unlocked cards will appear on the FUT team over the course of a season, and will be given to players from packs and via the unique item cards they unlock. Players can then try to unlock the highest value of these cards to help their FUT player improve and collect more points in end-of-season competitions and in Showdowns. A full list of player cards features this year, including the highest value cards that can be unlocked, and each card is affected differently depending on the position it takes up on the pitch. For example, a player can be given an Attacking Midfielder who plays as a False 9 on the FUT team, and has no defender ability, so this player cannot play a defender card. This means that the Attacking Midfielder is now free to play as a striker, attacking defender, defensive midfielder, or winger and can be played as a No. 10 or False 9. All players with Rare cards are ranked on a tier system (gold, silver, bronze, and so on), determined by their card rarity. Rare players will feature a "flags" card that unlocks stat boosts for the entire team, helping you to rank higher in your Showdown and open packs faster. New Stadiums EA SPORTS unveiled five brand new FIFA Ultimate Team stadiums in the FUT Garage that

will be home to new Champions League and Pro
