MIDI Controller is an important part of music production. By using MIDI controllers on your computer you can create control layers for all kinds of music production programs. The Mijoy Pro should make this process more fun and even easier to manage. With Mijoy Pro you can add up to 8 different MIDI controllers to a MIDI track. The VSTi concept allows you to control your MIDI track from your MIDI controller and save the status of your MIDI controllers in track level. Additionally Mijoy Pro has several other features: · Idle Mode (switch when you stop to press or release) · Main Menu (toggle the status of your MIDI controllers) · Audio FX · MIDI Clock · MIDI Thru · Output Mode Setup · Slider Status (fade in/fade out). The Mijoy Pro VSTi comes with a software packag with MIDI controllers values and no support for a MIDI sequencer. ABPIOST PRO is a powerful VSTi/AAX MIDI plug-in which allows you to control a wide range of Ableton Live virtual instruments via a USB keyboard or MIDI Controller.
