This package contains: - A set of 35 matching desktop background (PNG format) - A set of 35 matching desktop panel color (PNG format) - A set of 35 matching desktop panel icons (PNG format) - A set of 35 matching desktop widgets (PNG format) - A set of 35 matching desktop screensavers (PNG format) I am only NOT going to upload any other set of icons except for this mockup set. I have tested this set on Firefox, Google Chrome and Opera for the desktop panel and widgets. It is working like a charm. This is my main set of icons for XFCE4 desktops (Tickmark with red color). This package is for linux-style xfce and gnome-style xfce so please use it only for desktop backgrounds or desktop panels. I have created this Mockup Set with a GNOME-Eclipse-3.0-theme and an Eclipse-3.0-theme and then I have made some slight changes to those themes to match the requirements of the new ECLIPSE 3.0 XFCE4 desktop. I don't have any other related programs for ECLIPSE 3.0. System Requirements:

PaxLair is designed to be run with an (optional) Pendant for extra power. You must also own a vial of wyvern eggs for the claw-crafted tunic to be worn by the Dragons. Dragons can be augmented with wyvern-taming weapons. It is recommended that all items except the Soul Spine and Pendant be placed in the ItemPile. This will make it easier to acquire new items. It is recommended that the Draconian Pendant be the only Pendant owned.
