Adobe Photoshop CC 2018 19.1.0.38906 (x86x64) Crack.Q: Conditional match string in array and output substring I have a list with a lot of prices: Now I want to have a condition to match the price and want to output the string including the comma before the closing bracket ("and a comma") and the price afterwards. I started like this: The problem with this, is that it only outputs the result if the comparison is satisfied. I want that it outputs the result and the substring itself if not. Help is appreciated. A: Maybe you want something like this... \$value) { if (in_array(strtolower(str_replace(
