You find yourself living in a house that was abandoned decades ago. There are electrical issues, and you find that the house has been overrun by creatures that don't seem to be related to Earth at all. What's left of the inside is barely livable, but there's no choice but to go on with your life. Gameplay In House of Abandon, your choices are limited. You must go inside the house, and that's it. The only way you can survive is by gathering items and giving them to a mechanic, who will replace some of the components with other useful objects. And sadly, you may find yourself playing with very basic controls. You can only move left and right, and there are a few moves that can help you move left or right a bit faster. It's not hard to
