Inside FIFA 22, HyperMotion technology is implemented in several key gameplay areas such as Ball Physics, Player Kicks and Player Runs. A match can be saved and played back at any point and each saved match from now on will support gameplay powered by this new technology. FIFA 20 introduced a host of new gameplay features, and many of these have been re-introduced in FIFA 22. The narrative-driven presentation has been improved in FIFA 22, and all story elements are now voiced. EA SPORTS FC is also back, with all community content (including FUT teams) featured. FIFA 22 includes the new Standard Game mode, which is a high-intensity, fast-paced version of UEFA Champions League mode, featuring a single-match format for your favorite football club, as well as the new 50-Mile Game mode, which plays out a full season of matches with real-world players and teams that will take you through most of the international leagues. FIFA 22 continues the tradition of combining genuine football play with the most realistic graphics on PlayStation 4. In addition to the enhanced visuals, FIFA 22 for PlayStation 4 includes a number of game-changing features. Eight-player online matches are now available, including triple-header games with FIFA Ultimate Team. Furthermore, FIFA Ultimate Team Champions Cup is back, with 24 of the world's best FUT pros battling for the title of FUT Champions. FIFA 22 also features the brand

new FUT Draft Mode. While we welcome fans to share their opinions on the upcoming game, please be aware that anything you submit may be published on our website or in other EA products and services. A real-world license for each player is required to play online matches, and is available as part of the game disc or as a downloadable player after purchase. FIFA Ultimate Team Pro Draft Mode players can be selected for online play. The selected players will remain on your team's roster when FIFA 22 is released. * This feature is not available for use with any of the online modes, other than for in-match use. Realistic Player Behavior: Players will tackle and collide with each other using their physical dimensions. Take the ball from one player and pass it to another, and the two might clash. New Real Player Physics: Pitch collisions have been re-engineered to better represent the tactile feel of the real pitch. Aerial Diving
