Final Fantasy VII remake will include new battle system Final Fantasy VII remake will include new battle system The remake of Final Fantasy VII will have a different battle system to the 1994 original, director Tetsuya Nomura has announced. Speaking to Japanese magazine Game Time Echo, Nomura explained that the team's new battle system will be simplified for the game, making it easier for players to participate in battles. He added that the full remake will be released worldwide for PS4 in 2020. "It will be called the 'Theatrical Version' and that's just what it is," he said. "However, we will make sure that it is the same system as [the original] Final Fantasy VII. So that's what we've decided, that it will be much more easy to play, and we're hoping that that will provide a better experience for our fans." Final Fantasy VII was one of the most successful games of the 90s, and its success and popularity have led to multiple remakes, spin-offs and sequels over the years. The last official game in the series was Final Fantasy XV back in 2016. The Original Final Fantasy VII has been remastered and re-released on various Nintendo platforms. Square Enix is also working on Final Fantasy VII Remake. In an interview with Famitsu, director Tetsuya Nomura said "The important thing is not just producing a quality product, but also giving players memories that will last long after they've played the game. "Therefore, it's essential that we use the same battle system from that time. Rather than creating a completely new game, we'll be working hard to improve things, so that will be the most important aspect for us." He also commented on the future of the franchise. "At this point in time, we've not developed any plans to continue the series, but when the time is right, it's not something we can say off the top of our heads." "The important thing is not just producing a quality product, but also giving players memories that will last long after they've played the game. Therefore, it's essential that we use the same battle system from that time
